HISTORY AND OUTLINE OF THE COMPANY

Zucchelli srl company is located in the **central part of Italy**, in Teramo city.

It is situated near :

- the super highway A24 (from Rome exit Teramo)
- the super highway A14 (from Ancona or Pescara exit Teramo).

The airport of Ancona or Pescara are 70 km far, the airport of Roma are 220 km far.

Zucchelli srl was founded in 2008 by Mr. Carlo Zucchelli and son.

The actual production program of **Zucchelli srl** includes:

- plants and machines for transport and motion of raw materials and finished products in the mining industry, coal industry, metallurgic industry, engineering industry, chemical industry, paper industry, glass plants, cement factory, brick industry, refusals plants.
- industrial plants for the production of concrete
- industrial plants for the production of prefabrications in cement
- electromechanical constructions and mechanics in general
- machines for Zone classified Atex (with explosion risk)

With Zucchelli srl software (for design of belt conveyors, bucket elevators, chain conveyors, screw conveyors) we can resolve any problem of transport.

The Zucchelli production is directed towards the national and foreign customers, from the small firm to the big one and for each one our firm may project and construct, the best solution with the requested specifications.

Zucchelli may assist to the assembling of the supplied machines, instruct the customer's personnel, guarantee an assistance with specialized workers, and supply all necessary spare parts.

THE PRODUCTION

Transport sector (Bulk Material Handling)

any type of belt conveyors (sidewall conveyors, pipe conveyors,....)

any type of bucket elevators

any type of screw conveyors

“Redler type” chain conveyors (1, 2 or 3 chains)

“Zippe type” chain conveyors

Scrapers chain conveyors (Redler type or others)

“Apron Feeders”

“Apron Feeders Caterpillar type”

Pneumatic deviators

Vibrating cones

Double-clip valves

Portual Bins with belt feeders

Trippers

Storage sector

all type of feeding and batching conveyors with rolling shutters

any type of screw conveyors

any type of elevators

all type of belt conveyors with metal cord

special conveyors for operating machines realized on design or requested specifications

Food sector

special conveyors for food as to standards

silos

Cement manufactured goods

complete plants or single components for the continuous production of in cement

complete plants for the production of panels

complete plants for the production of beams and pillars with “Tecnoimpianti 2000” system

complete plants for the transport of finished products from the block making machine to the packaging line

turbomixers

dedusting systems

Brick industry

storage and distribution with batching of clay
automatic loaders for drying rooms of fresh products
storage and distribution with batching of clay
continuous roller drying rooms
automatic loaders for dry material
automatic dischargers for burned products with packaging

Cement factory

automatic filling of raw material storage
automatic pickup of raw materials and distribution
transport of bags (motorized curves, etc.)
stackers and reclaimers
cleaning chain conveyors
dedusting systems

Glass industry

complete plants for composition up to the loading of hopper furnace
plants for recovery and crushing of glass scrap
feeding for raw materials and glass scrap
Turbo-mixers
weighing systems
silos, diversion devices, vibrating feeders.
automatic machines

Sugar industry

ramp conveyors for sugar-beet
conveyors for recovery
“Redler type” conveyors and screw conveyors
stone excluders
automatic and manual rolling shutters
elevator – conveyors for limestone and coal
complete plants for filling of storage bin and emptying of sugar from bin
stackers

Refusals Plants

Belt conveyors (for manual selection, for transport , for storage - trippers)

SideWall belt conveyors (Bannebord type or Bandedbord type)

Apron conveyors

Apron feeders

Bridge cranes with belt conveyors for storage

Deferrizers (Magnetic separation)

Metal detectors

Amagnetic detectors

Bins with belt extractor

Filter-Presses for dehydration of mud

Sand separator for waste water
